HIGHLIGHTS

- Until 5 October, there were 142,725 cumulative arrivals in Italy, compared to 130,567 in the last reporting period (a 9% increase). Comparing arrivals to Italy until 30 September from 2015 and 2016, there were 131,083 and 132,044 cumulative arrivals respectively, an increase of less than 1%. In Greece, to date, there have been 169,774 arrivals in contrast to 168,390 up until the last reporting period (an increase of less than 1%). Relative to the 30 September last year, there were 392,575 and 168,886 arrivals to Greece for 2015 and 2016 respectively.

- The total number of migrants and refugees stranded in Greece and in the Western Balkans is 73,721 (2% increase compared to the previous reporting period). Since the implementation of the EU-Turkey agreement on the 10th of March, the number of migrants and refugees stranded in Greece increased by 56%. For the rest of the countries, please read page 7.

- As of 5 October, there have been 5,878 individuals relocated to 22 EU Member States. Please see the new page on relocations for more information.

- As of 5 October, a total of 578 migrants and refugees were readmitted from Greece to Turkey as part of the EU-Turkey Agreement with last readmission taking place on 3 October 2016. The majority of migrants and refugees were Pakistani, Afghan, Bangladeshi and Iranian nationals. See Turkey section.

- Recent updates from the Central Mediterranean route with a focus on Libya and Niger is available on page 36.

- Information about “contingency countries” in the Western Balkans (Albania, Kosovo (SCR 1244)*, Montenegro, and Bosnia and Herzegovina), the Northern Route (Finland, Norway and Russia) is on page 39.

- For information on this report, including details on the sources of this report’s data and tallying methodologies used, please see page 41.

2. POLICY TIMELINE 2015—2016

17 September 2015
EU ministers approve disputed quota plan: the Czech Republic, Slovakia, Hungary and Romania are outvoted at the ministerial meeting when member states decide to relocate 66,000 refugees from Greece and Italy to other EU countries.

25 October 2015
EU Leaders agree on 17-point plan of action on the Western Balkans Migration Route. This includes Point 14: “Reconfirming the principle of refusing entry to third country nationals who do not confirm a wish to apply for international protection (in line with international and EU refugee law and subject to prior non-refoulement and proportionality checks),” which is thought to have inspired the fYR of Macedonia to close its borders to any migrants not of Syrian, Afghan, or Pakistani origin.

10 December 2015
The European Commission begins legal action against Greece, Croatia and Italy for failing to correctly register migrants. It also launches an infringement case against Hungary over its asylum legislation. It says the three failed to implement the Eurodac Regulation, which involves fingerprinting asylum seekers and registering the data within 72 hours.

7 March 2016
European leaders reached a tentative agreement with Ankara on the migrant and refugee crisis: the mechanism described as “one in, one out” would be that for every Syrian returned to Turkey from Greece, the EU would then resettle one Syrian from Turkey.

16 October 2015
EU announces it will give Turkey 3 billion EUR in aid and will fast-track approval of visas to Europe for Turkish citizens in exchange for increased controls on the flow of migration from the Middle East to Europe, and taking back migrants whose asylum applications have not been granted.

03 December 2015
Pakistan refuses to allow 30 deported Pakistanis to disembark plane from Athens.

11 February 2016
NATO sends naval patrols and air surveillance in order to deter smugglers in the Mediterranean Sea, as well as to gather intelligence and monitor migrant flow alongside Greek and Turkish coast guards.

18 March 2016
European Union and Turkey signed an agreement which outlines the plan to end irregular migration flows from Turkey to Europe. For more information please see previous Flows Compilation Report which is available here.
Based on the Commission’s proposals, the Justice and Home Affairs Council adopted in September 2015, two decisions to relocate 160,000 asylum seekers from Italy and Greece, to assist them in dealing with the pressures of the refugee crisis. Under the emergency relocation scheme, persons in need of international protection with a high chance of having their applications successfully processed (EU average recognition rate of over 75%) are relocated from Greece and Italy, where they have arrived, to other Member States where they will have their asylum applications processed. If these applications are successful, the applicants will be granted refugee status with the right to reside in the Member State to which they are relocated. Following the EU-Turkey agreement of 18 March 2016, the Commission has tabled a proposal on the 21 March 2016 to make available further places for resettlement or other forms of legal admission of persons in need of international protection from Turkey by amending Council Decision (EU) 2015/1601 of 22 September and reallocate 54,000 places which were foreseen for relocation for the purpose of resettling Syrians from Turkey to the EU. The EU Council has endorsed this proposal but the opinion of the European Parliament on the Decision is currently pending.

The relocations should take place over two years (September 2015-2017), with the EU budget providing financial support to the Member States participating.

IOM is implementing the pre-departure health assessments, pre-departure orientation and actual transfer of the beneficiaries in coordination with Italy and Greece as well as the Member States to which relocation takes place.

The European Commission has made available an overview of Member States’ support to the EU relocation mechanism. To date, **25 out of the 31 participating countries have committed to make places available** under the scheme, namely Belgium (530), Bulgaria (1,302), Croatia (26), Cyprus (80), Czech Republic (50), Estonia (136), Finland (1,120), France (3,320), Germany (1,250), Ireland (273), Latvia (491), Liechtenstein (43), Lithuania (500), Luxembourg (200), Malta (131), the Netherlands (1,075), Norway (170) Poland (100), Portugal (1,642), Romania (1,502), Slovakia (100), Slovenia (130), Spain (400), Sweden (300) and Switzerland (460) with an overall number of only **15,331 places**. You can find the overview [here](#).

4. Bulgaria

Background and latest figures

From the start of 2016 until 29 September* the Bulgarian Ministry of Interior (MoI) apprehended a total of 14,656 migrants who were attempting to enter, exit or reside in the country irregularly. 3,965 have been apprehended on entry, 4,046 on exit and 6,645 inside the country.

During the period, between 22 September and 29 September, 520 migrants were apprehended. Of these, 82 were apprehended on entry (35 at the border with Turkey, 1 at the border with Serbia and one at the airport in Sofia), 155 were detected on exit (majority on the exit toward Serbia and one person on the border with Romania) and 283 within the country. Additional 434 migrants who were previously registered by the Bulgarian Ministry of Interior, were apprehended while trying to irregularly leave the country toward Serbia. A total number of apprehensions on exit for this week represents a 78% increase compared to the previous week.

22 September—“80% of 160 million euros of emergency aid provided to the Government of Bulgaria (GoB) by the European Commission (announced on Sep 16 2016) will be invested in border surveillance. 20% will be employed to support for the State Agency for Refugees (SAR) and other stakeholders involved in the refugee crisis”, the MoI deputy head Filip Gounev declared. 5 million euros would be used for paying the remunerations of the LEOs surveilling the border. 45 million euro would be spent on extending the coverage of the Integrated Border Surveillance System that currently covers 90 km of the Bulgarian–Turkish border (259 km in total length). The deputy MoI minister informed the Border Police would request 36 million needed to buy a new military ship to surveille the sea border. Additionally, Gunev informed about plans to close down one of the SAR centers (three in total) in Sofia and to move it out of the capital city. This is expected to happen within a one year period.

25 September—The National Association of the Municipalities in Bulgaria announced it would participate jointly with SAR in a project for refugees resettling in municipalities that have been seriously affected by a negative demographic growth. No more details have been announced. However, it would be related to refugees’ consent to participate.

29 September—Bulgaria has detained a French citizen suspected of links to terrorism on Paris’s request after he tried to cross into Turkey. (Bulgarian Prosecutors’ Office). The French authorities demanded the detention of 18-year-old Clement Michel after he breached a restriction to leave France. The Bulgarian authorities detained Michel at the border with Turkey.

4 October—the European Commission President Jean-Claude Juncker has said the agreements on the allocation of 108 million Euros to Bulgaria for border protection will be finalized by the end of the week (3-7 Oct 2016). The additional sum of 52 million euros is still being “considered” by the EC.

5 October—two men are under investigation by the Prosecutors Office (in the town of Montana) for smuggling 6 Iraqi (incl. 4 children) migrants who drowned in Danube on 8 September, 2016. They are also investigated for facilitating “illegal residence” of TCNs in the country.

**Known entry and exit points**

The main entry points between Bulgaria and Turkey are border checkpoints Kapitan Andreevo, Lesovo and Malko Tarnovo. Migrants and refugees who are coming from Greece mostly use green areas near Kulata-Promahon check-point or available routes in Petrich region. Most migrants and refugees enter Bulgaria from green border on foot. Those coming from border checkpoints usually enter by hiding in buses or other vehicles. Undetected migrants continue their journey via taxis and private transportation to external borders or to big cities to find a means of onward transit.

### Accommodation Facilities (capacities) and Border Crossing Points**

*Latest available data.

**Based on the available data.
5. CROATIA

Recent Developments

The total number of migrants and refugees who have entered the country from the border with Serbia and have been registered at the Winter Reception and Transit Centre in Slavonski Brod (WRTCSB) since the start of 2016 is 102,275. Since the closure of the so called “West Balkans route” on 9 March 2016, the influx and transit of migrants and refugees to Croatia vs. that in the period from 16 September 2015 to 9 March 2016 ceased as a high-volume transit. However, there are still arrivals of irregular migrants, as well as the Dublin Regulation-based returns from other EU Member States.

6. Hungary

Key Findings and Recent Developments

From 01 January 2016 to 5 October 2016, a total of 18,637 migrants and refugees were registered arriving in Hungary. Due to the barbed-wire fence in place along the Serbian and Croatian borders, there have been reduced numbers of arrivals since 17 October 2015. In the current reporting period, there were 81 new arrivals, a decrease from 98 arrivals during the previous reporting period. Colleagues from the field have reported that more and more migrants declare their intentions to stay in Hungary, as they have been worn down by the long journey.

28 September—According to IOM Hungary, the number of stranded migrants waiting at the Tompa and Röszke border crossing zones have reduced to between 70 and 110.

2 October—The quota referendum was held regarding the question: “do you want the European Union to prescribe the mandatory settlement of non-Hungarian citizens in Hungary even without the consent of Parliament?” Due to the low turnout of 53%, the referendum was deemed invalid. However, 98% of those who voted supported the government’s proposal, thus, the Hungarian PM, Viktor Orbán, claims he will ad the constitution in order to make the decision binding.

Known entry points

The border in Hungary has been officially closed since September 2015 with the completion of the fence. The migrants have been able cross the border only through the official crossing transit points of Tompa and Roszke on the border with Serbia. During the period between 25 August and 25 September, a total of 2,697 migrants have been apprehended while trying to cross Serbian-Hungarian border illegally. 50% (1,369) were prevented/stopped by the border police and 50% (1,328) were returned back to the Serbian side.

Apart from occasional arrivals through Romania and Croatia, there are no indicators that the route could have changed following the official closure of the Western Balkans route.

Known entry points: Serbian border—Röszke, Tompa, and Assothalom (under construction).

*Data available from 28 September, 2016
Mixed Migration Flows in the Mediterranean and Beyond • Flow Monitoring Compilation | 6 OCTOBER 2016

7. ITALY

Key Findings and Advanced Notifications

From 1 January 2016 to 05 October 2016, **142,725 migrants** are reported to have arrived by sea, which is a **8.6%** more than the arrivals registered in the same period in 2015. IOM data is adjusted according to the official figures provided by Italy’s Ministry of Interior every week. According to MOI, **Nigeria** represent the first declared nationality at arrival with around one quarter of all arrivals in 2016, followed by **Eritrea, Gambia, Ivory Coast, Guinea, Sudan, Mali, Senegal, Somalia, Bangladesh**.

In the Sixth Report on Relocation and Resettlement released on September 28th (available [here](#)) the European Commission pushes Italy to speed up the process to increase the number of and make the hotspots fully operational, as the current capacity of **1,600 places in the four operational hotspots** (Pozzallo, Lampedusa, Trapani and Taranto) is not sufficient. The number of unaccompanied minors arriving in Italy continued to increase (more than 20,500 arrivals since the beginning of January, of which more than 2,800 are Eritreans and more than are 115 Iraqis eligible for relocation). To limit secondary movements, the Italian police is regularly transferring migrants who moved irregularly from the South to the North of the country, back to the reception facilities in the South of the country.

**3 October**—three years from the dramatic shipwreck off the coast of Lampedusa in which 368 migrants died, Italy celebrated the first National Day in Memory of the Victims of Immigration. **3,502** migrants are recorded to be dead in the Mediterranean since the beginning of the year, **322** of which only in September.

**Cumulative arrivals by reporting date in Italy**

![Arrivals to Italy](#)

**Distribution of arrivals to Italy by nationality of origin (from 1 January to 31 August 2016*) for each month of the year**

![Distribution of arrivals by nationality](#)

*Breakdown per nationality is available only on a monthly basis.
Known entry and exit points

**Known entry points:** Migrants are usually rescued in international waters in the Central Mediterranean Sea and brought to mainland. Main ports of disembarkation are Augusta, Pozzallo, Catania, Palermo, Messina, Lampedusa and Trapani (Sicily), Reggio Calabria, Crotone, Vibo Valentia, Corigliano Calabro (Calabria). While the last week of September registered virtually no new arrivals because of unfavourable weather and sea conditions, the pace of search and rescue operations in the Mediterranean Sea and disembarkations has increased again during the first week of October, when some 6000 migrants have been rescued in the SAR zones in front of Libyan coasts.

**Known exit points:** As exit points towards neighbouring countries (France, Switzerland and Austria) are almost totally closed, more migrants trying to reach other European countries are stack in towns in the border areas. Mainly but not exclusively from Sudan, Eritrea and Ethiopia (Oromo), unaccompanied minors and women with small children are among them. Informal camps and gatherings in the train station area of Como, Ventimiglia and Rome (Tiburtina) have been evicted and dismantled by the Italian police at the end of September. Still, alongside migrants in transit hosted by some temporary shelters organized by municipalities—in Como, Milan, Ventimiglia, some hundreds of migrants per night are reported to be gathering around the train station areas in Rome and other cities in the North of Italy.

Key Findings and Advanced Notifications

05 October – Over the period from 22 September to 5 October 2016 estimated 47 migrants and refugees arrived in Serbia. This represents 59.8% decrease compared to the previous reporting period. The total number of migrants that have entered the country since the start of the year is 98,775.

Accommodation Facilities (as of 5 October 2016)

Presevo Reception Centre

During the reporting period 45 estimated arrivals to Presevo reception center, average of 3 per day. Majority or newly arrived migrants and refugees are from Afghanistan, estimated 91%. Adults make up approximately 73% and minors 27% of the total number of new arrivals.

Estimated breakdown by nationality and age/gender for migrants arrived at Presevo RC. Source: IOM, SCRM*

*Commissariat for Refugees and Migration of the Republic of Serbia
On 5 October 672 migrants and refugees were accommodated in Presevo Center (average for period—687), 50% adults (male—69%, female—31%) and 50% minors (male—67%, female—33%). Of the number of accommodated migrants and refugees 59% are from Afghanistan, 18% from Iraq, 12% from Syria, 8% from Pakistan, 3% other nationalities.

Estimated number of accommodated migrants/refugees in Sid area reception centers. Source: IOM, SCRM

Reception Centers in Sid

5 October – the reception center in Sid accommodated 527 (average for period 497) migrants and refugees, mostly from Afghanistan (52%) and Pakistan (24%). Reception center in Adasevci accommodated 867 (average for period 826) migrants and refugees, mostly from Afghanistan (54%), Syria (20%) and Iraq (8%). Reception center in Principovac accommodated 584 (average for period 594) migrants and refugees, mainly from Afghanistan (54%) and Syria (13%). Over the reporting period estimated average number of migrants and refugees present at reception centers in Sid area is 1,917 per day, ranging from 1,648 to 2,069.

Estimated number of accommodated migrants/refugees in Sid area reception centers. Source: IOM, SCRM, Border Police
Subotica Reception Center and Transit Zones

On 5 October at Kelebija and Horgos border crossing zones, the combined number of 250 migrants and refugees present, an increase compared to 169 reported on 21st September. Additionally the reception center in Subotica is accommodating around 400 migrants and refugees. Number of persons admitted to Hungary remained the same as in the previous period, on average 30 migrant and refugees per day (15 per border crossing zone).

9. Slovenia

Key Findings and Advanced Notifications

Since the beginning of 2016, a total of 99,187 migrants and refugees have been registered entering Slovenia. From 22 September up to 6 October, there were no registered arrivals through official entry points.

23 September – Slovenian Minister of the Interior Vesna Györkös Žnidar and Polish Minister of the Interior and Administration Mariuszem Blaszczakom met in Warsaw, focusing their discussion on migration and current migration issue in the region.

23 September – Slovenian Minister of the Interior Vesna Györkös Žnidar and the Interior Minister of Germany Thomas de Maizière met in Berlin discussing the current situation in the Western Balkans region, with the focus migration and on action to be taken in addressing migratory flows.

24 September – After the summit on the Western Balkans migration route ended today in Vienna, Prime Minister of the Republic of Slovenia Miro Cerar explained that illegal migrations along the Western Balkans route will no longer be tolerated. He emphasized the importance of continuing the implementation of the Turkey - European Union agreement and to work together to strengthen the control of the external borders.

27 September – The Slovenian Police has deployed the ninth group of police officers to FYR of Macedonia. Between 28 September and 28 October 2016 eight police officers will participate in the border control in the Macedonian

Accommodation Facilities (with occupancy/capacity) and Border Crossing Points

There are four accommodation facilities in Slovenia. The three main centres are: the Asylum Home in Ljubljana (which consists of two premises at different locations in Ljubljana), Asylum Home in Logatec and the Centre for Foreigners – Postojna. The total capacity of the Centres is 1,730, currently accommodating 280 migrants and refugees. Migrants and refugees who started the procedure for international protection are accommodated on the premises of the Asylum Centre, while the Centre for Foreigners-Postojna is the facility for migrants and refugees involved in return procedures. Apart from this, there were 21 migrants and refugees in alternative accommodation arrangements, totaling at 301 migrants and refugees currently residing in Slovenia.
10. Turkey

Background and latest figures

According to the latest available figures from the Turkish Directorate General of Migration Management (DGMM) there are currently an estimated 3.1 million foreign nationals present in Turkish territory seeking international protection. Most are Syrians (2,736,032 individuals) who are granted temporary protection status, while according to UNHCR, 285,025 asylum applicants from countries including Afghanistan, Iran, Iraq and Somalia constitute another significant group of foreign nationals requiring Turkish humanitarian and legal protection.

In addition, there are 422,895 foreign nationals present in Turkey holding residency permits including humanitarian residence holders. The exact number of the humanitarian residence holders is unknown, but it is estimated that there are a few thousand humanitarian residents.

Turkey’s Temporary Protection regime grants the 2,736,032 Syrian migrants the right to legally stay in Turkey as well as some level of access to basic rights and services. The vast majority - 2,482,296 individuals - live outside camps, officially called Temporary Accommodation Centers and are spread across the Turkish border provinces of Şanlıurfa, Gaziantep, Hatay and Kilis. 253,736 Syrians live in 26 camps that are also located close to the Syrian border.

Data source: DGMM
Asylum Applicants

Another significant group of foreign nationals requiring international protection in Turkey are 285,025 asylum applicants consisting of different nationalities, but mainly coming from Afghanistan, Iran, Iraq, Somalia and other countries. (Based on UNHCR figures, September 2016.).

Foreigners who wish to stay in Turkey beyond the duration of a visa or visa exemption i.e. longer than ninety days must obtain a residence permit. According to DGMM’s 2015 Turkey Migration Report, there are 422,895 residence permit holders in Turkey within various categories of the residence permit. The residence permit include. Humanitarian Residence permit holders but the exact number is unknown. It is believed that vast majority of this category are Iraqi nationals.

Apprehended/Rescued Persons on sea

The Turkish Coast Guard has apprehended 32,596 irregular migrants and has registered 180 fatalities between January to 5th of October 2016 period. The increase in the number of apprehended/rescued migrants as of August is notable. These figures only include those apprehended and rescued by the Coast Guard; actual numbers of migrants and refugees departing Turkey by sea could be much higher than this.

Apprehended Persons on land

According to Turkish Armed Forces’ daily figures, between 22 September– 05 October, 24,908 irregular persons were apprehended at the Syrian, Iraqi, Iranian, Greek and Bulgarian borders of Turkey. The entry and exit figures breakdown is as shown in the table. The highest number of irregular crossing happened at the border with Syria, with a total number of 23,319 apprehended persons. The irregular exits points are higher at the Western Borders while Syria, Iraq and Iran borders are continuing to be entry points to Turkey.

Apprehensions by Turkish Land Forces* Statistics
(22 August 2016– 5 October September 2016)

Readmitted Migrants and Refugees to Turkey

On 18th March 2016, EU and Turkey agreed on the readmission of migrants arriving Greece to Turkey after 20th of March. In this regard, according to DGMM reports, 578 migrants and refugees have been readmitted to Turkey from Greece between 4 April and 03 October 2016. The main exit points in Greece include Lesvos, Chios, Kos and Samos and the main entry points to Turkey include Dikili, Çeşme, Bodrum and Adana (through the airport).

*Data source: Turkish Armed Forces
The agreement aim was to replace disorganized and irregular migratory flows by organized and safe pathways to European countries. In this regard, it is agreed on that for every Syrian being returned to Turkey from the Greek islands, another Syrian will be resettled directly to Europe from Turkey. According to DGMM data released on October 3, there are 1,670 persons that have been resettled under this mechanism and mainly to Germany, Sweden, France and the Netherlands. The country breakdown is in the below chart.

Known entry and exit points

Known entry points by land: Hatay, Kilis, Şanlıurfa (from Syria), Silopi, Çukurca (from Iraq), Şemdinli, Yüksekova, Başkale, Ağrı, Doğubeyazıt (from Iran)

Known entry points by air: İstanbul Atatürk, İstanbul Sabiha Gökçen, Antalya, Esenboğa Ankara (from third countries)

Known exit points by sea: Çeşme, Ayvalık, Didim, Bodrum, Küçükçuyu (Locations close to Lesvos, Samos, Chios, Symi, Kos and Rodos)

Known exit points by land: Edirne (to Greece and Bulgaria), Kırklareli (to Bulgaria)

Known exit points by air: İstanbul Atatürk, İstanbul Sabiha Gökçen (to certain EU MS)

*Data source: DGMM
The Former Yugoslav Republic of Macedonia

Recent Developments

During this reporting period (22 September – 5 October) no new arrivals were registered in the former Yugoslav Republic of Macedonia which makes a total of 89,698 arrivals registered since the beginning of 2016.

Transit centre Vinojug

Accommodation facility located close to the Greek border in Gevgelija region, has a full capacity of approximately 1,100-1,200. Currently it accommodates 122 Syrian, Iraqi and Afghani nationals (27 female, 38 male and 57 children).

Until the beginning of March, prior to changes in the border regimes along the Western Balkans route, the “Vinojug”, Gevgelija Centre was the main entry point for migrants who were coming from Greece. In this transit Centre migrants and refugees who expressed intention to seek asylum in the country were registered and processed. After this procedure migrants and refugees spend up to several hours in the Centre before taking the train or other transportation to the northern border with Serbia.

Tabanovce Transit centre

Accommodation facility located close to the Serbia border in Tabanovce region, has a full capacity of approximately 1,100. Currently it accommodates approximately 61 migrants and refugees. The main nationalities are Syrians and Iraqis (19 female, 18 male and 24 children).

Until the beginning of March, Tabanovce Transit Centre, was the main exit point for migrants and refugees who were heading to Serbia. Migrants and refugees were staying in the camp for a short period of time before continuing their journey towards Serbia.

The total number of accommodated migrants and refugees in the former Yugoslav Republic of Macedonia as of 5 October is 183 which is a 84% decrease since the closure of the Western Balkans Route.

Accommodation Facilities (with occupancy/capacity) and Border Crossing Points
**12. The Central Mediterranean Route**

**Niger**

IOM has been monitoring migrant flows in two key monitoring points in Niger since February of 2016 in Séguedine and Arlit. The former, Séguedine, represents a crucial point for migration to and from Libya and involves crossing extended, isolated stretches of desert in the before mentioned adverse climactic and safety conditions. Arlit stands as a key migration hub for those heading to Algeria and for those seeking economic opportunities in the mining industry along the border with Algeria.

Since August 2016, the Nigerien government has been implementing stricter measures to control irregular migration of Migrants from the Economic Community of West African States (ECOWAS) travelling towards Libya or Algeria. Due to these measures, there has been a significant decrease in flows from Niger to these countries. Migrant departures from Séguedine, for example, decreased by around 40% between August to September. Main nationalities of migrants, however, remain the same and are composed of Nigeriens, Nigerians, and Gambian and Senegalese nationals, in descending order. For more information on flow monitoring activities in Niger, please see [Niger’s global DTM page](#).

![Graph](image)

**Outgoing and Incoming Flows Over Time**

**Libya**

**Background and latest figures**

In Libya the systems for thorough data collection have not yet been established, with available information being provided by the Libyan Coast Guard, Libyan Red Crescent, and Non-Governmental Organisations (NGOs). As of 5 October 2016, the Libyan Coast Guard (or other entities) had rescued 14,017 migrants and had reported 380 fatalities for 2016. The breakdown by month for those rescued at sea can be found below. These figures only include those intercepted at sea and rescued by the Coast Guard (or other entities); actual number of migrants and refugees departing Libya by sea are in fact higher than this.

*On 28 September, 18 bodies were retrieved in Tobruk by the Libyan Coast Guard.*

*On 2 October, the Libyan Coast Guard rescued 800 migrants on 5 boats at Az Zawiyah Misfate port. LRC were present to provide assistance. The migrants will receive non-food items and hygiene kits through IOM local partners PSS, STACO and LRC.*

*On 3 October, the Libyan Coast Guard rescued 139 migrants in Garaboli. The rescued migrants were suffering from bad health conditions but received the necessary treatment upon arrival. In addition, 11 bodies were retrieved (9 women and two children) will be transferred to Tripoli today, with the help of LRC.*

*On 3 October, 22 migrants were rescued by the Libyan Coast Guard in Sabratah.*

*On 3 October, 240 migrants, on two boats, were rescued and transferred to Al Nasr detention centre with the help of our partners STACO and PSS.*
On 4 October, 138 migrants were rescued by the Libyan Coast Guard outside Zuwara, west of Tripoli. The rescued migrants are in good health and will be transferred to Surman detention centre.

On 4 October, 20 bodies were retrieved by a charity boat on the shores of Tripoli.

On 5 October, 96 migrants were rescued by the Libyan Coast Guard outside Zuwara. In addition, 3 bodies (two women and one child) were retrieved on the shores of Zuwara city. The migrants were transferred to Surman detention centre.

MissingMigrants.iom.int
**ALBANIA**

**Latest figures**

During this reporting period (22 September - 3 October) Albanian authorities apprehended 114 irregular migrants. This represents a 30% increase compared to the previous reporting period when 245 migrants were apprehended. Apprehended irregular migrants are given the possibility of applying for asylum in Albania. The alternative options for apprehended migrants are to leave the territory, or to return voluntarily to their country of nationality. The majority of irregular crossing were detected in Kakavia/ Kakavijë border crossing point with Greece. All irregular crossings in the reporting period were returned to Greece by the Albanian police or were asked to voluntarily return to Greece. The Albanian Border Police immediately notify IOM when an irregular migrant or group of migrants is detected.

*Known entry points with Greece by land*: Kapshica, Tre Urat Sopik, Kakavia or Kakavijë, Rips, Qafé Botë  
*Known entry points with Greece by sea*: Port of Sarandë  
*Known entry points with the FYR of Macedonia*: Gorica, Tushemisht, Qafa Thane, Billate  
*Known entry points with Kosovo (SCR 1244)*: Shishtavec, Orgjost, Morina, Qafë Prush, Qafa e Morines  
*Known exit points with Montenegro*: Bashkim, Han i Hotit  
*Known exit points with Italy by sea*: Stun Gjin, Porto Palermo, Port of Sarandë

**Kosovo (SCR 1244)**

**Latest figures**

During the reporting period (22 September – 5 October, 2016) Kosovo Border Police apprehended 16 irregular migrants at the green border with Albania (Vermica, Western Kosovo). All apprehended migrants were from Afghanistan (11 male, 5 female including 8 accompanied minors) and requested asylum in Kosovo. Following that, they have been accommodated at the Asylum Center in Magure.  

**Accommodation facilities**

There are two open reception centers in the country in the Magure (Lipjan area) and Pristina. Most of irregular migrants use Kosovo as a transit country and leave the centers after 6-7 days. Magure center currently accommodates 54 migrants out of whom 29 Syrian, 18 Afghan, 2 Iraqi, 1 Yemeni, 2 Macedonian, 1 Albanian and 1 Palestinian nationals (20 female, 34 male, out of whom—29 children).

*Known potential entry points with Albania*: Vermice – Prizren, Qafa eMorines, Qafa and Prushit  
*Known potential entry point with Montenegro*: Kulla-Peje  
*With Serbia* – Jarinje, Leposaviq, Zubin Potok, Merdare

Montenegro

Background

Montenegro has been largely unaffected by Mediterranean migration flows due to various reasons, including its geographical position. Nevertheless, Montenegro remains an important “contingency” country which might see an increase in flows if the route changes.

Latest figures

Data is collected from the Asylum Directorate, Border Police, and Asylum Centre. At the end of each working day, the Asylum Directorate provides information on how many new migrants/refugees intended to seek asylum (entered Montenegro), and the Border Police share information regarding how many persons have sought asylum at the border crossings and how many migrants have been apprehended entering irregularly or within the country irregularly.

Since the beginning of 2016, a total of 167 irregular migrants were apprehended in Montenegro. All migrants are accommodated in Asylum Center (capacity 80) and Detention Center (capacity 40) located in Spuz, Danilovgrad. Currently, there are three migrants in the Detention Center—one Serbian national and two from Bosnia and Herzegovina.

Bosnia and Herzegovina

Background

The modest figures include both registered arrivals and apprehensions by the BiH Border Police of irregular migrants on entry and exit. Despite the low figures, BiH remains an important “contingency” country which might see an increase in flows if the route changes.

Apprehended irregular migrants are given the possibility of applying for asylum in BiH. The alternative options for apprehended migrants are to leave the territory or to return voluntarily to their country of nationality. The BiH Border Police supply numbers of registered and detected arrivals and exits to the country on a monthly basis.

According to the Border Police, in the first six months of 2016 there were no irregular entries of Afghan, Iraqi, Syrian, Iranian and Pakistani nationals to Bosnia and Herzegovina. During the same period, a total of 919 Afghan, Syrian, Iranian, Iraqi and Pakistani nationals entered the country regularly, possessing valid travel documents and visas.

Known entry and exit points

Known entry point by air: Sarajevo Airport from Istanbul.

Known entry point by land: Bijeljina city, on the BiH eastern border.

Known exit points: Mainly towards Croatia on the North-West border, no particular area.

17 May – New guidelines were issued by the Finnish Immigration Service as a result of a modification of the Aliens Act. The modification restricted the granting of humanitarian and subsidiary protection for Afghan, Iraqi and Somali nationals. Read more here.

07 August – According to the Finnish Immigration Service, since the beginning of 2016, a total of 3,763 migrants and refugees have arrived in Finland. This total includes refugees relocated through the EU relocations program.

For more information on the Northern Route (including Russia) see previous Flows Compilation Reports which are available here.

16. EARLY WARNING INFORMATION SHARING NETWORK (EWIS)

Over the course of 2015 the Western Balkans route witnessed a sharp increase in numbers of mixed migration flows, most of which were transiting through Greece, the former Yugoslav Republic of Macedonia, Serbia, Hungary, and Croatia. These flows encompass refugees, as well as a wide range of vulnerable migrants, undocumented persons, unaccompanied and separated children, with the majority facing serious protection concerns. With up to 10,000 migrants crossing the border between Greece and the fYR of Macedonia, and between the fYR of Macedonia and Serbia on a daily basis during July and August 2015, it became critical to ensure the real-time provision of information on these flows, in order to ensure that relevant governmental agencies and humanitarian actors within these countries had adequate responses in place to address the basic needs of migrants. For more information about the project see the previous Flows Compilation Report available here.

17. ABOUT THIS REPORT: DTM IN THE MEDITERRANEAN AND BEYOND

IOM’s Displacement Tracking Matrix (DTM) is a suite of tools and methodologies designed to track and analyse human mobility in different displacement contexts, in a continuous manner.

In order to gather and disseminate information about the migrant populations moving through the Mediterranean, up the Western Balkan Route and through the Northern Route into Europe, in September 2015 DTM established a Flow Monitoring System. The Flow Monitoring System includes this weekly flows compilation, which provides an overview of migration flows in countries of first arrival and other countries along the route in Europe, and analysis of trends across the affected region. The data on registered arrivals is collated by IOM through consultations with ministries of interior, coast guards, police forces, and other relevant national authorities.

The system also includes flow monitoring surveys to capture additional and more in-depth data on the people on the move, including age, sex, areas of origin, levels of education, key transit points on their route, motives, and intentions. This data has been captured by IOM field staff in Greece, the former Yugoslav Republic of Macedonia, Serbia, Hungary, Croatia and Slovenia since October 2015. The analysis of collected data is available on the IOM portal for Mediterranean. The latest report of the “Analysis: Flow Monitoring Surveys in the Mediterranean and Beyond” (as of May 18) is available here.
