As part of the national COVID-19 vaccination campaign led by the Libyan National Centre for Disease Control (NCDC), IOM conducted awareness-raising sessions on COVID-19 vaccines for a total of 305 adult migrants in community settings in three municipalities during the ninth week. Trained IOM community mobilizers, accompanied by medical teams provided the migrants with critical information on COVID-19 vaccines, including its importance, dosage, side effects and addressed questions and concerns related to the vaccination processes.

During the ninth week, 720 people (520 migrants and 200 Libyans) have received either Sinopharm or AstraZeneca vaccines.

The migrants vaccinated were from 38 different countries of origin, including Eritrea (20%), Egypt (19%) and Niger (14%).

Country of origin disaggregation for migrants vaccinated

- Eritrea: 20%
- Egypt: 19%
- Niger: 14%
- Sudan: 8%
- Nigeria: 6%
- Morocco: 5%
- Bangladesh: 4%
- Somalia: 4%
- Syria: 3%
- Other: 17%

By the end of the ninth week, a total of 7,366 migrants (591 females and 6,775 males) have received either Sinopharm or AstraZeneca vaccines, out of which, 2,048 migrants (28%) have received two doses and are fully vaccinated (including the migrants who received the first dose before 3 October 2021). Vaccines were provided and administered by NCDC.

As of the end of the ninth week, a total of 7,366 migrants (591 females and 6,775 males) have received either Sinopharm or AstraZeneca vaccines, out of which, 2,048 migrants (28%) have received two doses and are fully vaccinated. The vaccination process was conducted by trained IOM community mobilizers and medical teams. The migrants received critical information on COVID-19 vaccines, including their importance, dosage, side effects, and the vaccination process.

The migrants vaccinated were from 38 different countries of origin, including Eritrea (20%), Egypt (19%), and Niger (14%).

By the end of the ninth week, 7,907 awareness sessions were attended by 305 migrants, and a total of 7,366 migrants were vaccinated, including 2,048 who received two doses. Vaccines were provided and administered by NCDC.
