

**3** Points of Entry **147** Total movements (incoming and outgoing) observed

## OVERVIEW

During the COVID-19 pandemic, IOM's Displacement Tracking Matrix (DTM), in collaboration with the World Health Organization (WHO), monitors the movements to and from Nigeria's Adamawa and Borno States in the North East Nigeria. Assessments are conducted at Points of Entry located along the border with Cameroon.

During the period 23 August - 03 September 2021, 147 movements were observed at three Points of Entry in Borno state. Of the total movements recorded, 101 were incoming from the Far North Region in Cameroon and 2 from N'djamena in Chad. Additionally, 44 outgoing movements were recorded from Borno State to the Far North Region in Cameroon.

A range of data is collected during the assessments to better inform on travellers' nationalities, sex, reasons for moving, mode of transportation and timeline of movement as shown in figures 1 to 4 below:

**NATIONALITIES OF TRAVELLERS (FIG. 1)**

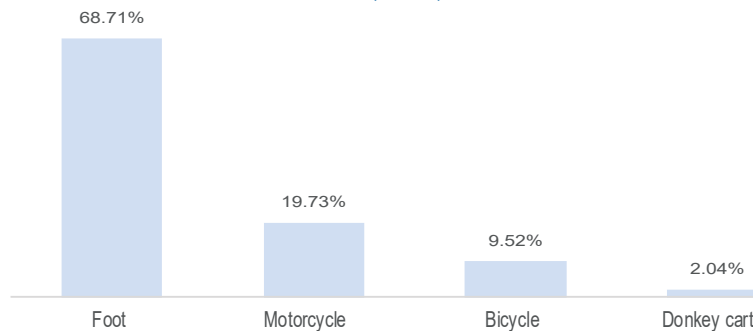

**REASONS FOR MOVEMENT (FIG. 3)**

Reasons for Movement	Number of Individuals	Percentage
Forced Due to Insurgency	1	0.7%
Economic Migration	4	2.7%
Short Term Local Movement	16	10.9%
Seasonal	51	34.7%
Family Visit	75	51.0%
<b>Grand Total</b>	<b>147</b>	<b>100%</b>

**SEX (FIG. 2)**

**MODE OF TRANSPORTATION (FIG. 4)**
