

**DTM OVERVIEW**

The Displacement Tracking Matrix (DTM) is IOM's primary suite of tools used to track and monitor displacement and population mobility in over 60 countries around the world including Sudan. During the month of July 2017, IOM DTM teams conducted 29 field missions, covering about 70 sites/villages, to register and verify different caseloads of IDPs, returnees, refugees and affected host communities in the states of North Darfur, South Darfur, West Darfur, South Kordofan, and West Kordofan. A total of 15,819 individuals were registered during these missions. Additionally, the DTM teams tracked 1,747 individuals arriving at different localities in South Kordofan and 232 individuals in Abyei. In addition, 12,764 returnees were registered in North Darfur since January 2017. All DTM activities are conducted in collaboration with the Humanitarian Aid Commission (HAC), the Area / Humanitarian Country Team (A/HCT) and partners on the ground.

**29**  
DTM Missions

About 70 sites were visited or planned to be visited in these missions

**11 Completed**

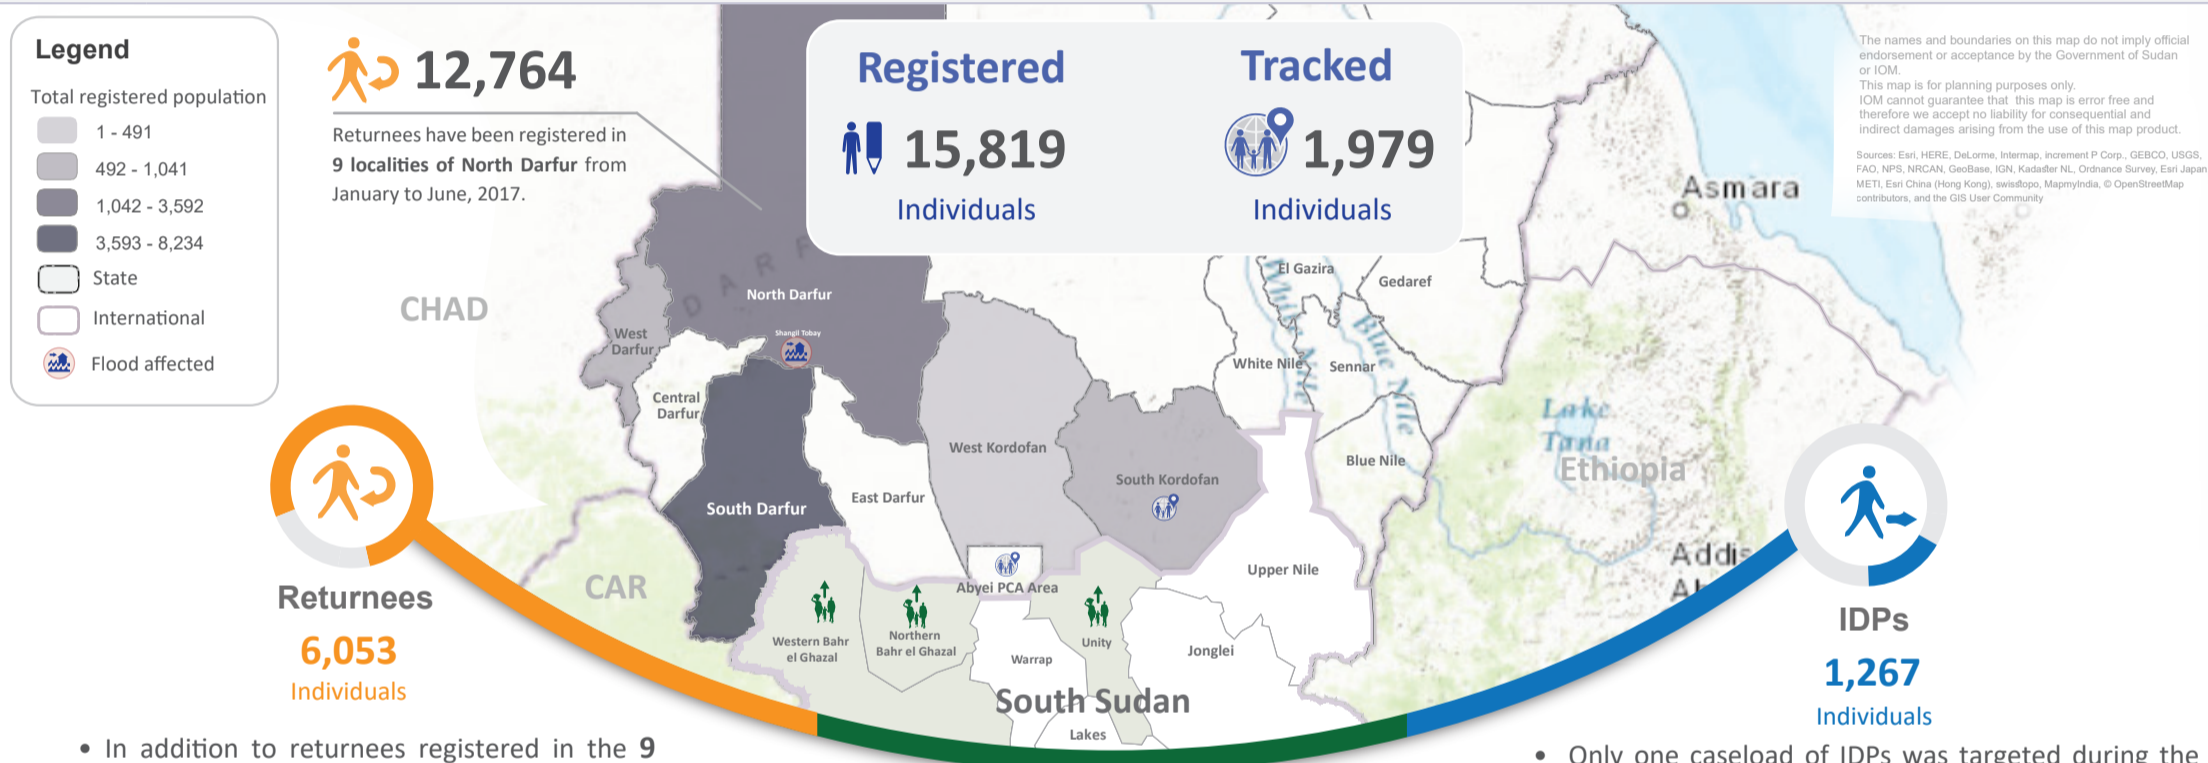

DTM teams completed 11 registration missions in July, consisting of 2 missions in North Darfur (including the regular registration of returnees exercise at 9 localities), 2 in South Darfur, 1 in South Kordofan and West Kordofan each, and 4 in West Darfur.  
24 sites / villages visited during these 11 missions.

**1 on-going**

There is 1 on-going DTM mission, in En Nahud locality in West Kordofan, registering South Sudanese refugees (old and new caseloads).

**18 Planned**

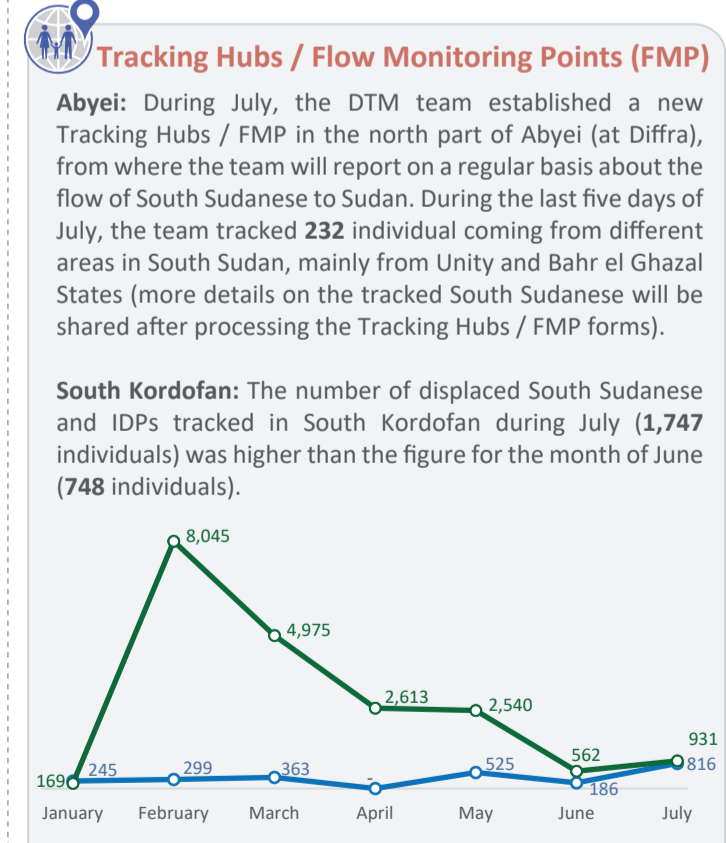

18 missions are initially planned for August, consisting of 4 in North Darfur, 2 in South Darfur, 4 in West Kordofan, 5 in South Kordofan, 1 in Central Darfur and 2 in West Darfur.  
More than 30 sites will be visited during these planned missions.

- In addition to returnees registered in the 9 localities of North Darfur State, the DTM team conducted 4 registration exercises in West Darfur and 1 in South Kordofan.
- A total of 2,461 returnees were registered in Domta (701 returnees), Gormi (1,015 returnees), Shoyo (355 returnees) and Kobary Jomata (390 returnees) villages in the West Darfur as well as 3,592 in Alreif Alshrgi, South Kordofan.
- The registered returnees consisted of IDP and refugee returnees. The refugee returnees were registered in Um Baru, Tina, and Kornoi in North Darfur, whereas returnees in Alreif Alshrgi, South Kordofan, and the remaining returnees registered in North Darfur were IDP returnees. Returnees registered in the 4 locations of West Darfur were composed of both IDP and refugee returnees.
- For the returnee registration in South Kordofan DTM team utilized tablet devices for electronic data collection.

- Refugees**  
**491**  
Individuals
- Out of 1,270 reported South Sudanese refugees, the DTM team registered and identified 491 South Sudanese refugees in 6 locations (El Khuwei twon (213 SS), Um Lobana (136 SS), Nasharbo (21 SS), Morkab (60 SS), Um Awesha (23 SS), Al Dodia (34 SS) and Megasem Al Tahir (4 SS)) in Al Khawai locality in West Kordofan State. The mission report is already shared with the partners.
  - The registration of the 1,573 South Sudanese refugees in En Nahud are ongoing, the team has already completed registration at more than one site.

- Only one caseload of IDPs was targeted during the month of July, comprised of 1,267 IDPs registered at the Kalma IDP camp.

**Flood Affected Population** 8,008 individuals

DTM identified and registered a total of 8,008 flood affected individuals in Shangil Tobay IDP Camp (1,041 individuals), North Darfur, and Kalma IDP Camp (6,967 individuals), South Darfur. Majority of the houses of the identified population were totally destroyed.
