

COVID-19 Point of Entry Dashboard 12:North East Nigeria.

25 - 31 JULY 2020

KEY FIGURES

171 3

OVERVIEW

IOM DTM in collaboration with the World Health Organization (WHO) and the state Ministry of Health have been conducting monitoring of individuals moving into Nigeria's conflict-affected northeastern states of Adamawa and Borno under pillar four (Points of entry) of COVID 19 preparedness and response planning guidelines.

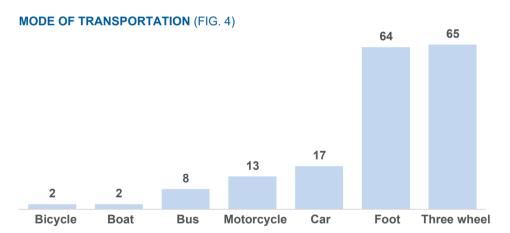

During the period 25 - 31 July 2020, 171 movements were observed at Fourteen Points of Entries in Adamawa and Borno states. Of the total movements recorded, 76 were incoming from Extreme-Nord, 8 from Nord in Cameroon and 4 incoming from N'djamena in Chad Republic.

A range of data was collected during the assessment to better inform on migrants' nationalities, gender, reasons for moving, mode of transportation and timeline of movement as shown in Figures 1 to 4 below:

MAIN NATIONALITIES OBSERVED (FIG. 1) Cameroonain Nigerien Nigerian GENDER (FIG. 2) 67% 33%

REASONS FOR MOVEMENT (FIG. 3)

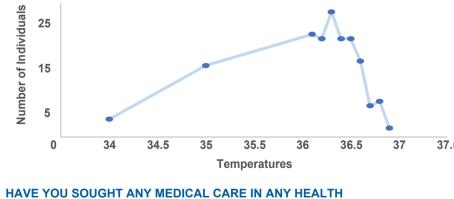

Reason for Movement	Number of Individuals	In Percentage
Economic Migration	4	2%
Forced Due to Conflict	5	3%
Short Term Local Movement	7	4%
Family visit	59	35%
Seasonal	96	56%
Grand Total	171	100%

HAVE YOU HAD ANY OF THESE SYMPTOMS

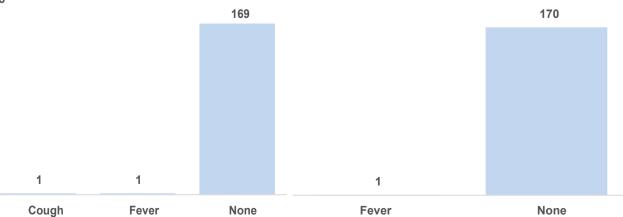

(FEVER, COUGH) IN THE LAST 14 DAYS? (FIG. 7)

The map is for illustration purposes only. The depiction and use of boundaries, geographic names and related data shown are not warranted to be error free nor do they imply judgment on the legal status of any territory, or any endorsement or acceptance of such boundaries by IOM

PASSENGERS HEALTH SCREENING

Through interviews with travelers by enumerators at Points of Entry, information was obtained from travelers' points of departures, intended destination, vulnerabilities, temperatures, reasons for moving and mode of transport. Additional questions concerning the COVID-19 pandemic were asked to determine if travelers exhibit any symptoms of coronavirus; if they had come in contact with anyone who exhibiting such symptoms or might have died from it?

Furthermore, the assessment was to check if travelers had taken any medications in the last 24 hours and also to know if they are aware of the authorities to call in case of emergencies. The results are shown in figures 5 to 8.
